**Subject:** registration review/PRIA schedules

**Importance:** High

Afternoon All,

Would you please send me the current registration review/PRIA schedule for your respective chemical listed below. This is imperative since these chemicals have been chosen to be assessed in an upcoming PBPK science advisory panel meeting in October 2017. This information is necessary for the Administrators Office to recognize the critical nature of the meeting and those chemicals chosen to be assessed.

Specifically, if your chemicals due date/schedule has had to ever be revisited or changed in any way due to a human health risk assessment decision needing to be made, please note that also.

I need the information by COB Tuesday, May 23, 2017, if possible.

Thank you all very much,

MDKing

**PBPK SAP Chemical Registrants and CRM:**

Permethrin – CAPHRA – Brittany Pruitt

Deltamethrin – CAPHRA – Bilin Basu

Carbaryl – TKI – Linsey Walsh

Dimethoate – FMC/Cheminova – Tom Harty

Malathion – FMC/Cheminova – Steven Snyderman

Acibenzolar – Syngenta – Leigh Rimmer
